

Delivering Excellent Patient Care Close to Home

*Maintaining our life-saving
Trauma Center.*

*Offering cutting-edge
technology.*

From early morning until late at night, The Reading Hospital family is busy providing health and wellness services. More than one million individuals every year come to our West Reading Campus seeking emergency or trauma care, to welcome newborns into their families, or for acute inpatient care. They visit our Spring Township-based hospital for nationally recognized physical rehabilitation, or our nearby SurgiCenter for outpatient procedures. They have appointments with their primary care or specialty physicians who refer them for laboratory or imaging tests at their choice of convenient sites.

A comprehensive network of close-by healthcare services is what our community has come to recognize as The Reading Hospital. The highest level of clinical excellence and patient safety is what our community has come to expect from our team of professionals. As we have for each of the past 143 years, we remain committed to investing in the people, technology, and programs that bring our services close to where you live or work.

Your support of our annual Development Fund campaign will enable us to accelerate our commitment to you, your family, and your home community. Thank you!

Assuring primary care physicians for our community's future.
