JOB PLACEMENT:
Job placement rate for program completers: 75%

Who is included?	16 of the 18 students completing the program between July 1, 2010 and June 30, 2011 are included in this calculation. The remaining two students elected to continue their education rather than seek employment following program completion.
What type of job?	This job placement rate looks only at jobs that were in the field of study. Positions that recent completers were hired for include: Diagnostic Radiology – 6 Mammography – 1 Computed Tomography (CT) - 3 Magnetic Resonance Imaging (MRI) – 1 Interventional Radiography - 1
When were they employed?	This rate is based on program completers who were employed within 180 days of completion and were employed for at least 13 weeks**.**
How were graduates tracked?	This information was obtained via graduate surveys. The 2010-2011 response rate to the graduate survey for this cycle was 78% (14/18 surveys were returned). In addition to the 14 students returning the surveys, two graduates

	who did not complete the survey are known to be employed at the parent institution for the total of 16 known responses.
What agencies (state or accrediting), if any, is this rate reported to?	This job placement rate is reported annually to the Radiologic Technology Program's national accreditor: Joint Review Committee on Education in Radiologic Technology (JRCERT). www.jrcert.org
